

MDR+

SERVICE OVERVIEW

Legato Security's MDR+ service is built to help organizations detect, triage, and remediate threats across their network. Expert cybersecurity analysts working out of Legato Security's Security Operations Center (SOC) deploy best-of-breed tools to keep client networks and digital assets secure, 24/7/365.

"The asset intelligence tools included in MDR+ provide a layer of visibility and protection that other vendor's simply don't provide"
- CISO, Technology Industry

SERVICE CAPABILITIES

MANAGED SECURITY 24/7/365

Legato Security's U.S.-based security staff provides security every minute of every day.

DETECTION, TRIAGE, AND REMEDIATION

Legato Security's threat hunters take active steps to detect anomalous behavior and stop a threat in its tracks.

ASSET DISCOVERY AND INTEL

Identify, understand and secure every endpoint on the network with asset intelligence tools.

CLOUD-BASED & SCALABLE

MDR+ is designed to scale with the growth of any size organization.

BUSINESS OUTCOMES

ELIMINATE ALERT FATIGUE

Legato Security's SOC manages and triages every alert, ensuring threats don't get by undetected.

STREAMLINE DAY-TO-DAY

MDR+ gives customers time back in the day to focus on business critical tasks.

REDUCED MEAN-TIME-TO-REMEDiation

Legato Security MDR aggregates threats across the network, providing the visibility and context to respond to threats fast.

INCREASED OPERATIONAL EFFICIENCY

Automate routine tasks like log management, threat detection, and response to ensure smooth daily operations.

ONBOARDING

Legato Security will deliver work with the customer to deliver a hands-on, onboarding strategy.

DEPLOYMENT

Once the appropriate access, controls, and policies are in place, Legato Security deploy our tools across each endpoint on the network.

OPERATIONS

24x7x365 monitoring, active alert detection and analysis, with real time reporting.

REPORTING

Regular reporting on events, remediation, and analytics help customers identify gaps and improve their security posture.

WHY LEGATO SECURITY MDR+?

ASSET DISCOVERY & INTELLIGENCE

An industry first. Legato Security's MDR+ service includes asset discovery and intelligence, helping identify and secure every endpoint on the network. The asset discovery and intelligence tools will:

- Discover vulnerabilities from applications on the network
- Identify every physical, virtual, or cloud-based system on the network
- Eliminate gaps in security coverage from unprotected endpoints

FULL SERVICE SOC

Legato Security's SOC operates 24x7, and is will help eliminate alert fatigue by:

- Detect, triage, and correlate every alert
- Prioritize threats for remediation, saving customer's time and money
- Respond and remediate threats on behalf of the customer

LEADING TOOLS AND PROCESSES

Legato Security's vendor agnostic approach means that our SOC will manage and optimize a customer's existing set of security tools, eliminating the need to rip and replace their original investment.

- Immediate ROI by leveraging existing tools and pairing them with a team of security experts to streamline operations
- Flexible architecture and system integrations
- The ability to select best-of-breed technologies to compliment your existing security solutions

WE SCALE WITH YOUR ORGANIZATION

Legato Security's open security platform allows us to build and scale a security solution that fits clients' business now, and in the future.

- With services that range from strategic and advisory services through fully managed network security, Legato Security has a service for any size organization
- Select the appropriate tools and solutions for your organization current needs
- As your organization matures, Legato Security will be with you every step of the way by creating a tailor-made security plan that scales with your needs

THE VALUE OF LEGATO SECURITY MDR

COST-EFFECTIVE

Legato Security's MDR represent a significant savings to customers. Compared to standing up an in-house solution, Legato Security's MDR+ saves customers time and money.

ALWAYS-ON

24/7/365 monitoring means customer networks are protected every minute, of every day.

ADVANCED ANALYTICS

Legato Security's MDR leverages machine learning and behavioral analytics to enhance detections of anomalies, patterns, and trends that may indicate malicious activity.
