

# VULNERABILITY MANAGEMENT

## SERVICE OVERVIEW

Legato Security's Vulnerability Management service offers comprehensive protection for customer systems by continuously identifying, assessing, and addressing security vulnerabilities. Legato Security conducts regular scans, prioritize and classify risks, and provide detailed reports to help you mitigate potential threats effectively. With Legato Security Vulnerability Management, customers can confidently safeguard infrastructure, reduce the risk of breaches, and maintain a strong security posture.

## SERVICE CAPABILITIES

### VULNERABILITY SCAN

Best-of-breed automated scans identify vulnerabilities across client servers, network devices, databases, and applications.

### ASSET DISCOVERY

Legato Security works with clients to identify and account for all relevant assets.

### RISK PRIORITIZATION

Expert security analysts help clients prioritize vulnerabilities and their fixes, hardening security and availability.

### PATCH MANAGEMENT

Automated tools ensure client systems are updated with the latest patches and fixes.

## BUSINESS OUTCOMES

### REDUCED RISK EXPOSURE

Robust vulnerability management identifies and patches security gaps before they can be exploited.

### COST SAVINGS

Preventing breaches saves customers money, reputational damage, and potential legal liabilities.

### BUSINESS CONTINUITY

Vulnerability management reduces downtime due to breaches and other compromises.

### ACTIONABLE REPORTING

## WHY LEGATO SECURITY VULNERABILITY MANAGEMENT?

### FULL SERVICE SOC

Legato Security's SOC operates 24x7, ensuring that our customers are protected from cyber attacks every minute of every day. Designed to augment and support a customer's existing security team, the Legato Security SOC will:

- Detect, triage, and correlate every alert
- Prioritize threats for remediation, saving customers time and money
- Respond and remediate threats on behalf of the customer

### LEADING TOOLS AND PROCESSES

Legato Security's vendor agnostic approach means that our SOC will manage and optimize a customer's existing set of security tools, eliminating the need to rip and replace their original investment.

- Immediate ROI by leveraging existing tools and pairing them with a team of security experts to streamline operations
- Flexible architecture and system integrations
- The ability to select best-of-breed technologies to compliment your existing security solutions

### WE SCALE WITH YOUR ORGANIZATION

Legato Security's open security platform allows us to build and scale a security solution that fits your business now, and in the future.

- With services that range from strategic and advisory services through fully managed network security, Legato Security has a service for any size organization
- Select the appropriate tools and solutions for your organization's current needs
- As your organization matures, Legato Security will be with you every step of the way by creating a tailor-made security plan that scales with your needs

## THE VALUE OF VULNERABILITY MANAGEMENT

### PERSONALIZED

Tailored to the needs of each organization, Legato Security ensures that each service meets the needs and required outcomes of each customer.

### CUSTOMIZED

Each Legato Security service accounts for the unique resources and parameters of a customer environment, helping create a custom and results driven engagement.

### ACTIONABLE

Post-service reports provide actionable intelligence and recommendations to further harden the customer's security posture.

*"Legato Security's vulnerability management service has helped our team identify and secure gaps in our security coverage."*
